

Donation Partnerships

Needs Inc. partners with several nonprofit organizations to put all of our donations to use.

Our first priority for our donations is, of course, our clients. However, when the community is generous enough to donate more than Needs Inc. can use or donates items that we can't distribute, we donate the items to another cause. These partnerships allow donors to bring everything to one place, as well as support multiple nonprofits at once. All of our partners are properly researched and approved for this process.

Below is a list of items that we are occasionally able to pass on.
